Delphi PME
Summary 09-15-2007.

Carl:

I am following up on our call of last week regarding the Debtors' objection to GE's cure claim.

By way of background, GE filed a "cure claim" for all pre-petition amounts owed to GE pursuant to various equipment leases. GE filed the cure claim in the amount of \$620,181.39 based upon GE's records evidencing pre-petition amounts totaling at least \$647,375.69*** (see below and attached) and the Debtors' offer, via Rob Arambasich, to settle GE's general unsecured claim for \$620,181.39. Numerous efforts were made by my office to follow up on this offer in the hopes that an agreed upon cure claim could be filed. We received no response from your office in this regard. As a result, and in an effort to avoid further litigation on this issue (GE has already had to defend at least three motions regarding these amounts), we filed a cure claim in the amount proposed by Debtors.

On our call, you advised that the Debtors are treating pre-petition cure claims and pre-petition general unsecured claims differently for purposes of the claims resolution process. I don't think the Debtors are taking the position that there is an actual difference under the law as to these amounts in theory -- just in the way that the Debtors are settling them. In that regard, you further advised that the \$620,181.39 offer from Mr. Arambasich was not for the resolution of the cure claim but the pre-petition unsecured claim, and that he in fact has no authority to resolve the very separate and distinct cure claim (it should be noted that Mr. Arambasich was the contact provided by your office months ago in response to my request to resolve GE's claims).

Finally, you indicated that (1) the Debtors believed the cure claim amount was in the range of \$420,000, (2) Debtors were supposed to provide an actual figure (see attached received from Debtors backing up at least \$484,659.55) and (3) you would advise as to whether the Debtors are taking a position that GE's leases are expired and/or terminated (this is yet a separate analysis that is being conducted).

All I have received to date from you is further correspondence stating that the Debtors dispute the cure claim.

Please be advised that the Debtors' approach to GE's claims has created unnecessary legal fees for both GE and the estate. Please advise as to a reasonable approach to resolve this simple issue. I suggest that a representative of the Debtors with authority and knowledge contact a designated representative at GE.

GE reserves all of its rights and remedies in this regard. Nothing herein shall be construed as a waiver.

I look forward to hearing from you.

***In its response to the Debtors Second Claim Objection, GE asserted that \$651,626.18 was due and owing. GE reserves all rights regarding this discrepancy.
